and Trademarks
Washington, D.C. 20231

Sir:

Listed on these accompanying PTO-1449 forms are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that an exhaustive search has been made, or that there does not exist information more material to the examination of the present patent application. The Examiner is specifically requested not to rely solely on the material submitted herewith. It is further understood that the Examiner will review art of record in all 35 U.S.C. § 120 priority documents.

This Information Disclosure Statement is being filed more than three months after the U.S. filing date and after the mailing of a Final Rejection or Notice of Allowance, but before payment of the Issue Fee. It is hereby requested that the Information Disclosure Statement be considered. We hereby authorize the deduction of \$180.00 in payment of the fee under 37 C.F.R. § 1.17(p) from Deposit Account 18-1260.

It is respectfully requested that the Examiner initial and return a copy of these enclosed PTO-1449 forms, and to indicate in the official file wrapper of this patent application that the documents have been considered. These documents have previously been considered by the Examiner in co-pending application 09/020,746. For your convenience, copies of the documents listed on these PTO-1449 forms are enclosed. Please note that the file wrappers of U.S. Patent Applications 09/565,009 and 08/843,652 were not available from the Patent and Trademark Office at the time of this submission. Copies of these disclosures that are provided herein were obtained from the file wrappers of U.S. Patent Applications 09/874,138 (published U.S. application 2002/0072091A1) and 09/757,421 (published U.S. application 2002/0048785 A1), respectively. The '138 and '421 applications are continuation applications of the '009 and '562 applications, respectively. As such, we believe the disclosures of each such application, for purposes of 35 U.S.C. § 120, must be identical to the two aforementioned applications. The Examiner is requested to acknowledge review of these cited applications.

If Applicant has overlooked the payment of any fees with regard to the filing of this Information Disclosure Statement, the Commissioner is hereby authorized to charge Deposit Account No. 18-1260.

Respectfully submitted,
